Revolutionizing Entertainment: Imagination and Gaming In a Novel Era

PRESENTED BY
GDSC VISHNU INSTITUTE OF TECHNOLOGY

In collaboration with

(29-04-2024) - (01-05-2024)

VISHNU INSTITUTE OF TECHNOLOGY, BHIMAVARAM, INDIA

Welcome Note

Dear Participants,

Welcome to REIMAGINE - Revolutionizing Entertainment: Imagination and Gaming in a Novel Era!!

As the Principal of Vishnu Institute of Technology, it gives me immense pleasure to extend a warm welcome to all the bright minds gathered here to embark on this extraordinary journey of creativity and collaboration.

REIMAGINE marks a historic moment as the first-ever game development hackathon conducted in Andhra Pradesh. There has never been an event like this before, making this occasion truly groundbreaking and unprecedented.

This is not just any hackathon; REIMAGINE is the biggest gaming code fest ever witnessed in our state which continue to happen for 72 hours start from April 29, 2024, to May 1, 2024. With its scale and scope, it promises to be nothing short of a grand gaming festival, bringing together enthusiasts and experts alike to celebrate the magic of gaming.

Over the three days of journey, you will have the opportunity to unleash your creativity, push the boundaries of gaming, and redefine the future of entertainment.

I encourage everyone of you to embrace this opportunity with open arms, to challenge yourselves, and to push the limits of what you think is possible.

I am confident that REIMAGINE will not only be a showcase of talent and innovation but also a testament to the power of collaboration and teamwork. The exciting prizes and journey is awaiting. Together, we can revolutionize entertainment and leave a lasting impact on the gaming industry.

I wish you all the best of luck, and I look forward to witnessing the incredible creations that will emerge from this hackathon. Let's make history together!

Warm regards,

Dr.M.Venu, M.Tech , Ph.D. [IIT Kharagpur]
Principal & Professor

What's REIMAGINE?

REIMAGINE, the ultimate game development hackathon presented by Google Developer Student Clubs - Vishnu Institute of Technology! Dive into a thrilling journey where creativity meets technology, as teams are tasked with bringing their game ideas to life in an adrenaline-fueled competition. With a focus on functional development and innovative design, REIMAGINE aims to inspire and challenge participants to push the boundaries of gaming. Join us for an unforgettable experience where passion, skill, and camaraderie collide, creating lasting connections with fellow game enthusiasts. Get ready to unleash your imagination and embark on an epic adventure at REIMAGINE!

Eligibility & Team Rules

- This competition is open to students pursuing B.Tech/B.E./M.Tech or related Engineering Programs across ALL Engineering Colleges in India (Batch 2024, 2025, 2026 & 2027)
- Students must register in teams of 2 to 4 members
- At least one girl is recommended in a team
- The participating students can be from any specialization
- One person cannot be a member of more than one team
- Any deviation from the above will result in immediate disqualification of the entire team

Participant Responsibilities

1. Participants are expected to adhere to the guidelines set forth by the organizing committee throughout the duration of the event.
2. Teams must bring their own laptops, development tools, and any other necessary equipment for game development.
3. It is mandatory for each participant to carry a printed copy of their Game Design Document (GDD) to the offline event.
4. Code, design, and refine your games during the 72-hour Grand Finale on-campus, guided by industry mentors.

What you can expect?

1. Visitor Entry:

- Access to Parallel Gaming Events: Engage in exciting tournaments and side activities separate from the main hackathon.
- Participation in Fun Activities: Enjoy interactive entertainment and social events planned throughout the code fest.
- Networking Opportunities

2. Participant Entry:

- Main Hackathon Participation: Compete in the heart of the event, developing your game concept into a playable reality.
- Food and Accommodation: Enjoy complimentary meals and comfortable lodging provided throughout the 72-hour hackathon.
- Travel Allowance: Travel allowance (sleeper fare) will be given for participants from states other than AP.
- Fun activities: Take breaks with fellow participants by engaging in activities like Parallel Gaming Events, Fun Activities, DJ Nights, Campfire and more.

Additional Info

👤 At our REIMAGINE hackathon, participants are not merely competitors but valued contributors. Here are some recognitions from our side:

🎁 Exclusive swag items for attendees as a token of appreciation for their participation and dedication.

📋 Certificate of Achievement

📘 Social Media Features

🤝 Networking Opportunities

🗣 Feedback Sessions

👉 Alumni Network and Industry Expert Inclusion

Parallel Events

Participants have access to parallel events like Matrix Quest, Vice City and Code Hunt.

1. Matrix Quest:

Matrix Quest is an FPS based game. This game is a military operation to find the location of a bomb attack that was designated to happen in the player's country. There are 5 major people involved in this and at last if all the missions were succeeded then the operation MatriXqst is accomplished.

There are 6 missions. In each mission players have to follow the instructions given and complete the task. Once the task is done, a tech based question pops up. Player will enter into the next level if the tech question is answered.

This event helps the player to inculcate skills like gaming, tech skills, problem solving, adaptability and teamspirit.

2. Vice City:

Vice City lets the player put into the shoes of Tommy, a smart guy out to get his stuff back from Diaz and Lance. With Ken by your side, explore Vice City's lively streets, complete missions, and face thrilling challenges. Help Tommy and Ken seek revenge with strategy and skill. Ready to take on Vice City's tough world and win?

3. Code Hunt:

Code Hunt is a web based game play on a serial killer. In which the player needs to find the killer by solving each case and analyzing the clues. There will be 5 cases which are like 5 levels and each level player needs to solve 2 questions to get a case file/clue.

At the last level, there will be a text box where the player needs to input the killer's name. If it's correct, the first person to do it will be the winner. This event helps players to gain tech skills, critical thinking, analytical skills, observation, problem solving, attention to detail and adaptability.

THE GRAND FINALE

The Grand Finale of REIMAGINE is the route to gaming realm where talent meets excellence. It is a pure amalgamation of presenting the digital masterpieces to a renowned panel of judges, industry experts in the hallowed halls of Vishnu Institute of Technology and funful events. Get ready to shine through the brilliant minds and upcoming ameteurs for an exciting ride to the gaminf realm, reimaging with REIMAGINE in a 72 hours adrenaline and exhilarating period of game development and tranforming into a magnificant game fest! What are you waiting for, get your shoes on for an exicting event, where:
